Audit Findings

Audit Narrative

The auditor's description of the audit methodology should include a detailed description of the following processes during the pre-onsite audit, onsite audit, and post-audit phases: documents and files reviewed, discussions and types of interviews conducted, number of days spent on-site, observations made during the site-review, and a detailed description of any follow-up work conducted during the post-audit phase. The narrative should describe the techniques the auditor used to sample documentation and select interviewees, and the auditor's process for the site review.

The Apartment Living Program (ALP) received an on-site PREA audit July 29-30, 2018. This facility is an independent living program and one of the four residential programs administered by the Tidewater Youth Services Commission and is located in Virginia Beach, VA. This audit began at the Apartment Living Program on July 29. PREA auditors Vernon Harry and Susan Heck conducted the Audit. Both auditors conducted interviews of the staff, residents and reviewed files.

This program has a maximum occupancy of eight residents, two residents in each of the four apartments making up this independent living program; each resident has his own room. There is one bathroom per apartment; residents have the ability to shower and bathe without being viewed by each other or staff.

In order to comply with auditing standards relating to the minimum number of residents who should be interviewed during a PREA audit, all current residents (5) of the program were interviewed as part of this audit. All reported receiving vulnerability assessments and PREA education at intake. All residents interviewed knew how to report any victimization and articulated multiple ways to make a report. All residents confirmed that staff knock on their apartment doors and announce themselves (opposite and same gender) before entering for apartment checks.

All staff members of the program were interviewed in order to comply with auditing standards relating to the minimum number of staff who should be interviewed during an audit. Depending on their job duties, staff took part in multiple interviews. Three staff members perform intake duties and administer vulnerability screenings. ALP does not take placement of residents after normal working hours. All staff members were able to describe the steps to take should they receive a report of sexual abuse or sexual harassment.

There have been no instances of sexual abuse or sexual harassment reported by the facility since the last PREA audit. No residents or staff reported knowledge of any sexual abuse or sexual harassment report since the last PREA audit. None of the residents interviewed indicated any feelings of concern about their personal safety at the ALP.

The files of all residents who have been in the program since the date of its last PREA audit were reviewed. This review indicated that the program is very consistent in conducting vulnerability assessments with residents on the day of intake and that PREA education is conducted on the same day. This file audit also confirmed that residents who report prior sexual victimization or having been sexual predators are offered appointments and follow-up within the timeframes designated by the standards.

Interviews of the Executive Director, PREA Coordinator, HR administrator, and another staff member who has qualifications to perform QMHP duties (emergency basis only as all residents receive services in the community) were conducted at the Tidewater Youth Services agency office in Portsmouth, VA. The employee background records and training records of all staff were reviewed. Although ALP is a new program some of the staff have been with the agency for longer than five years. Subsequent background checks for any staff who have been with the agency for longer than five years were also reviewed. The HR Administrator described the process for making sure five-year backgrounds are conducted for all staff in this category.

There are cameras to provide coverage of exterior areas of the apartment buildings (including a picnic area where residents gather outside) and interior hallways leading to apartments. The cameras do not provide coverage in the bathroom areas or where residents dress or bathe. There were cameras in the staff office area where residents are seen for services. The audio in staff office is also recorded. Executive staff members can view both video and audio footage from their cell phones. There are notices in the staff office notifying that audio and video recordings are being made.

Any forensic examinations would be conducted at Sentara Virginia Beach General Hospital, which has a child advocacy center and 24/7 safe/sane nurses. The telephones for the residents are located in their apartments and numbers for making reports were posted on a bulletin board beside the phone. PREA posters were evident in the office and in each individual apartment.

The Executive Director of the YWCA, which provides 24- hour sexual assault hotline services and is the advocacy program identified by the ALP to respond to any allegation from an ALP resident, was interviewed prior to beginning onsite. She advised that there had been no instances of sexual abuse or sexual harassment reported to the YWCA.

The agency has an excellent relationship with the Virginia Beach Police Department and they respond to the facility if they need assistance. There is a MOU in place indicating their knowledge of the PREA standards and their willingness to comply with the standards.

Facility Characteristics

The auditor's description of the audited facility should include details about the facility type, demographics and size of the inmate, resident or detainee population, numbers and type of staff positions, configuration and layout of the facility, numbers of housing units, description of housing units including any special housing units, a description of programs and services, including food service and recreation. The auditor should describe how these details are relevant to PREA implementation and compliance.

The Apartment Living Program works with males and females (17.5 to 20.6 years of age) who have been involved with the Juvenile Justice System and are returning to the local community. The facility can accept both male and female residents but has never had any female residents admitted since it opened in 2016. The majority of the residents return to the community with minimal family support or resources and need independent living skills. Some of the program services offered to them include: Individualized service plans, individualized counseling, Independent Living workshops and groups, education placement support, vocational/employment placement support, money management, etc. Residents are expected to complete an independent living workshop curriculum which covers the skills above as well as an array of other topics.

The program consists of five (two-bedroom) apartments, one of which is utilized as a staff office providing 24-hour on-site supervision. The other four apartments have the capacity to house two clients each for a total population of eight. The apartments are located next to the Virginia Beach Convention Center with easy access to public transportation, employment opportunities, and local schools. Residents are expected to attend school if they do not already have a high school diploma or GED. Residents are also expected to obtain and sustain employment with the goal of saving money so they can move out on their own. The ultimate goal of the program is to provide the support necessary for the young adults to be able to live independently as law-abiding citizens upon completion of the program.

Unannounced Rounds Log

The agency exceeds the 1:8 staffing ratio. They have both solid permanent staff and a cadre of part-time staff to help fill in when necessary. The facility is properly performing and documenting its unannounced rounds. The Program Director has the ability to view and record camera footage from his cell phone 24 hours a day. The facility exceeds the staffing ratio of 1-8.

PREA Policy describes staffing plan developed in accordance with standard. Auditors reviewed Staffing Plan Review Form. Interview with agency head/PREA compliance manager indicates that this is a carefully developed plan that allows for multiple contingencies in its effort to stay compliant with staffing ratios. The facility always met staffing ratios with no exceptions. Auditors suggested a more thorough documentation for the annual review of the staffing plan and further suggested listing each of the items described in the standard as a way to ensure the review is focused on each element of the standard.

This agency/facility does not do pat down searches at all, not of any type. If there is a concern about a resident having contraband or something that they should not have, the police are called and officers from the police department do a pat down search. Staff are allowed to use a wand to check for contraband and the police are called to conduct a pat down search if a resident does not comply. All resident and staff interviews were consistent about this---they do NOT do pat down searches, cross-gender or otherwise.

Residents are allowed to bathe and dress without being viewed by members of the opposite gender. Additionally, all residents interviewed described the staff's method of knocking and announcing that a female/male was in the apartment.

TYSC Screening and Vulnerable Population Assessment form

Resident interviews

Staff interviews

TYSC PREA Screening and Vulnerable Population Assessment; PREA Policy 1.6.2,#1 a-k reviewed. Evidence

TYSC PREA Policy 1.6.1

Staff interviews

Resident interviews

This facility is a non-secure group home and has clear policies prohibiting the use of isolation in any way, for any reason. Auditor reviewed Apartment Living Program Policy on Management of Resident Behavior provides guidance on management of resident behavior and states, "At no time will a resident be locked in their rooms." All staff and resident interviews confirmed that the facility does not use isolation.

All residents are allowed to shower separately.

This agency does extensive review and assessment of all residents prior to acceptance. If a resident's needs cannot be met, another placement is found.

A resident may be housed in an apartment alone if that best meets the need of the individual resident. The resident's view of his/her own vulnerability and safety are considered when housing choices are made.

Standard 115.352: Exhaustion of administrative remedies

All Yes/No Questions Must Be Answered by the Auditor to Complete the Report

115.352 (a)

- Is the agency exempt from this standard? NOTE: The agency is exempt ONLY if it does not have administrative procedures to address resident grievances regarding sexual abuse. This does not mean the agency is exempt simply because a resident does not have to or is not ordinarily expected to submit a grievance to report sexual abuse. This means that as a matter of explicit policy, the agency does not have an administrative remedies process to address sexual abuse. Yes No NA

115.352 (b)

- Does the agency permit residents to submit a grievance regarding an allegation of sexual abuse without any type of time limits? (The agency may apply otherwise-applicable time limits to any portion of a grievance that does not allege an incident of sexual abuse.) (N/A if agency is exempt from this standard.) Yes No NA

- Does the agency ensure that: A resident who alleges sexual abuse may submit a grievance without submitting it to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA
- Does the agency ensure that: Such grievance is not referred to a staff member who is the subject of the complaint? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (d)

- Does the agency issue a final agency decision on the merits of any portion of a grievance alleging sexual abuse within 90 days of the initial filing of the grievance? (Computation of the 90-day time period does not include time consumed by residents in preparing any administrative appeal.) (N/A if agency is exempt from this standard.) Yes No NA
- If the agency determines that the 90-day timeframe is insufficient to make an appropriate decision and claims an extension of time [the maximum allowable extension of time to respond is 70 days per 115.352(d)(3)], does the agency notify the resident in writing of any such

extension and provide a date by which a decision will be made? (N/A if agency is exempt from this standard.) Yes No NA

- At any level of the administrative process, including the final level, if the resident does not receive a response within the time allotted for reply, including any properly noticed extension, may a resident consider the absence of a response to be a denial at that level? (N/A if agency is exempt from this standard.) Yes No NA

115.352 (e)

- Are third parties, including fellow residents, staff members, family members, attorneys, and outside advocates, permitted to assist residents in filing requests for administrative remedies relating to allegations of sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- Are those third parties also permitted to file such requests on behalf of residents? (If a third party, other than a parent or legal guardian, files such a request on behalf of a resident, the facility may require as a condition of processing the request that the alleged victim agree to have the request filed on his or her behalf, and may also require the alleged victim to personally pursue any subsequent steps in the administrative remedy process.) - If the resident declines to have the request processed on his or her behalf, does the agency document the resident's decision? (N/A if agency is exempt from this standard.) Yes No NA

(N/A if agency is exempt from this standard.) Yes No NA

115.352 (f)

- Has the agency established procedures for the filing of an emergency grievance alleging that a resident is subject to a substantial risk of imminent sexual abuse? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance alleging a resident is subject to a substantial risk of imminent sexual abuse, does the agency immediately forward the grievance (or any portion thereof that alleges the substantial risk of imminent sexual abuse) to a level of review at which immediate corrective action may be taken? (N/A if agency is exempt from this standard.) Yes No NA

- After receiving an emergency grievance described above, does the agency provide an initial response within 48 hours? (N/A if agency is exempt from this standard.) Yes No NA
- After receiving an emergency grievance described above, does the agency issue a final agency decision within 5 calendar days? (N/A if agency is exempt from this standard.) Yes No NA
